This is a copy of the letter issued to superior by RRC. I am not sure if any additional correspondence has been sent.

Thanks  
Gary

Gary, the formatting of this letter may not be complete but it gives some of the cleanup standards to be met.

Glen

Could I get you to send me information about the tank 13 spill that occurred last year and the cleanup directions that were given to Superior.

What cleanup standards do you use for soil cleanups? Are they required to sample sidewalls and bottom of hole/trench?

Thanks
